

Adolfo Camarillo High School Foundation

The ACHS Foundation is a non-profit entity whose sole purpose is to enhance and supplement the academic, educational and developmental opportunities for all ACHS students by raising funds and in-kind support.

About the Foundation

Who We Are

We are parents, community leaders, and educators who volunteer our time and knowledge to support education at ACHS.

We are a non-profit 501(c)3 public charity, organized and operated solely for the benefit of the students at Adolfo Camarillo High School.

What We Do

We enhance the educational opportunities for ACHS students through your contributions.

Your monetary contributions and in-kind support will create a better learning environment. Help us grow!

We provide you with a way to support excellence in our school on a tax-deductible basis.

Who Benefits

Students receive improved learning materials, technology, equipment, and more opportunities to relate their education to real –world experiences.

Teachers receive direct support for their classrooms, giving them the tools to provide the kind of education that we all desire for our children.

These opportunities are not often available through public funding sources.

Businesses share their resources and reap the benefits of competent, career-oriented students entering the workforce.

Community receives a stronger education system that enriches all its members. Together, we all prosper when we improve our children's education.

Why We Are Needed

Public sources of funding are insufficient for providing the quality of education we desire for our children.

Your generous contributions will help fill the gap to enable our children to thrive in a highly competitive world.

Why We Need You

We need your support as an individual or business that has a vested interest in producing qualified, educated citizens in our community.

We welcome your interest in and contributions toward achieving our goals. Thank you for your consideration.
